Subject: Round Top Dr. and Tantalus Dr. Road Repair

Councilman Tam and the City Council-

This letter is to address the condition of Round Top Drive and Tantalus Dr. This road is used by residents and tourists alike. It is narrow and has many hairpin turns. It has also been designated a Historic Road. It's condition has deteriorated over the years to a deplorable state. Any repairs that have been done have been patched and are now back to their original disrepair. Specifically, there are two large holes that have orange cones in them to signal to drivers-one is across from 3300 Tantalus Dr. and the other is across from 3657 Tantalus Dr. I have personally called the Pothole hotline on these 2 holes three times over the last 2 months. Nothing has been done. The corner directly above my house (3665 Tantalus Dr.) has totally fallen apart and has not been repaired for at least 10 years.

I hope that something can be done to include funds for these roads in the upcoming budget.

Mahalo
